

# MP-DCCP progress

draft-ietf-tsvwg-multipath-dccp-11

Markus Amend on behalf of the authors, TSVWG @IETF118

# Draft status

**The document has been updated from -10 to -11 since the last IETF, focusing on language corrections and fixing an initial issue raised by Olivier's review.**

- Request to tidy the language in MP-DCCP by [@gorryfair](#) in [#254](#) (A big thank you to Gorry for this comprehensive language review)
- Explain MP\_SEQ number wrap by [@markusa](#) in [#230](#)

Full changelog: [draft-ietf-10...draft-ietf-11](#)

**It is expected that the upcoming version -12 will close all remaining issues and will then be ready for the WGLC.**
