Jeffery Zhang(Juniper)

BIER WG IETF-119 Meeting, March 2024

Overview

- This document specifies extensions to the BGP Link-state address-family in order to advertising BIER-specific information.
- BGP-LS Extensions for BIER
 - The following Prefix Attribute TLVs are defined:

Type	Description
TBD1	BIER information
TBD2	BIER MPLS Encapsulation
TBD3	BIER non-MPLS Encapsulation

Next Step

- The underlay drafts all passed WGLC.
- Ready for the next step.
- Comments welcome.

Thank you!
