IETF 119, Brisbane - RATS WG

Status Update

- (1st) WGLC concluded
- Relation with other drafts
- Next steps

WGGLC Summary

Excellent feedback, thank you all!

Major improvements both editorial and content-wise

Collections

- Unifying CMW and CMW collections:
 - CMW collections have been added to the top-level CMW production
- Mixed encodings in collections:
 - A "tunnelling" construct now exists to move CMWs of one type into collections of another type

Collection (cont.)

- The PKIX extension now applies to both type&value CMWs and collections
 - Clarify relation with TCG's OLD semantics
- An optional "__cmcw_t" (reserved) label was added to type a collection with a unique identifier
 - It can be used as a parameter for the "application/cmw" media types

Editorial

CDDL refactoring to improve readability

`s/array/record/g`
