

Update on BRSKI-AE: Alternative Enrollment Protocols in BRSKI

[draft-ietf-anima-brski-ae-12](#)

Repo URL: <https://github.com/anima-wg/anima-brski-ae>

David von Oheimb (ed.), Steffen Fries, Hendrik Brockhaus

Shepherd: Toerless Eckert

IETF 120 – ANIMA Working Group

BRSKI-AE status: recent activity

- AD review of version 10 by Mahesh Jethanandani: done on May 1st
- Handled COMMENTS and NITs
- Gen-ART review of version 11 by Meral Shirazipour: done on June 19th: ready w/nits
- Handled nits, resulting in version 12
- **Changes** between versions 10 and 12:
 - In response to AD review by Mahesh Jethanandani:
 - rearrange few paragraphs in abstract, introduction, and appendix
 - replace most occurrences of 'Note:' by 'Note that' or the like
 - convert some words to normative language, e.g., replacing 'may' by 'MAY'
 - change re-use of TLS channel by enrollment prot. from RECOMMENDED to MANDATORY
 - fix ambiguities and hard-to-read sentences by re-phrasing them
 - make wording more consistent, fix (mostly grammar) nits
 - Fix nits spotted in Gen-ART review by Meral Shirazipour

BRSKI-AE status: waiting for AD Go-Ahead

- WGLC done ✓
