Identity Alignment Update

id-align@ietf.org
Problem

1. Lack of Awareness of Related Work
   - Duplication of effort
   - Reinventing wheel

2. Terminology Confusion
   - Same concept, different terms
   - Same term, different definitions

This creates friction in standards development
1. Awareness

Lightning talks by authors on the “Why” of their work

- Focused presentation
  -> 5 minutes

- Interested parties can meet later for details

Trial run in Dublin?
2. Terminology

A glossary of existing terms and definitions

- A living document
  - not an RFC
- NOT creating definitions

Writing RFC for Glossary Process
Questions / Comments?

• Side meeting tomorrow @ 10:00am in Prince of Wales/Oxford
• id-align@ietf.org
