Reminder: Early IPR Disclosure Process

We follow process put in place in other groups as a result of very late IPR disclosures

This is not a required IETF process

Includes

Polling of draft authors & contributors:

- Prior to moving to next step in WG process

 - Before an individual draft becomes a WG document and

 - Before a WG document goes to last call

- Requires IPR compliance statement from ***all*** listed in draft

New Step:

Request that an IPR statement be sent to the list by any new author or contributor when added to a WG document

Shepherding

Next level beyond individual review to support other authors work

- See reciprocity. Ideally every document has a shepherd
- WG chairs as Shepherds is just a fallback solution
- Main additional work: checking doc formal aspects, WG-last-call shepherd writeup, tracking/involving in IETF/IESG last call process.
- Does not have to be technical expert on topic (would be great though), it is also about shepherding the process, supporting the WG/chairs.
- Thanks to Matthias Kovatsch to become Shepherd for 2 drafts (PRM, JWS)
- Thanks for Alexander Clemm to become Shepherd for RFC8366bis

Never enough time for technical discussions ?

- Sorry, IETF has a lot of processes.
 - Spending a bit of time 3 times a year on them is cost of business
- Design-Teams, Interims are the new WORKing group meeting
 - Online, meetecho makes it easy and painless
 - **PLEASE ASK CHAIRS TO HELP YOU GET ORGANIZED IF YOU CAN NOT DO IT BY YOURSELVES.**
- Please just ask on WG mailing list (or chairs if unsure)
 - Given reasonable interest, WG chairs happy to set up interim
- Most active work in ANIMA self-organized even without chair help!!!
