

Use of Remote Attestation with Certification Signing Requests

M. Ounsworth, H. Tschofenig, H. Birkholz, M. Wiseman, N. Smith

draft-ietf-lamps-csr-attestation-14

Status

- Several versions published since last IETF meeting (-10 to -14), see diff here:
 - <https://author-tools.ietf.org/iddiff?url1=draft-ietf-lamps-csr-attestation-10&url2=draft-ietf-lamps-csr-attestation-14&difftype=--html>
- Working on WGLC comments:
<https://github.com/lamps-wg/csr-attestation>
- Bigger items:
 - Removed „Multiple Evidence Bundles with Certificate Transmission Optimization” (removal of EvidenceBundles)
 - Updated examples in appendix (also a hackathon topic)
 - IANA registry clean-up in coordination with TCG
- Still various open issues.
