draft-ietf-netmod-sub-intf-vlan-model

- Current status is "WG Consensus: Waiting for Write-Up"
- <https://datatracker.ietf.org/doc/draft-ietf-netmod-sub-intf-vlan-model/>
- <https://github.com/netmod-wg/sub-intf-vlan-yang>
- Differences
 - Document has been stable since beginning of year.
 - Only change was to remove dependency on an expired draft and to change the examples from XML to JSON

draft-ietf-netmod-intf-ext-yang

- Current status is “WG Consensus: Waiting for Write-Up”
- <https://datatracker.ietf.org/doc/draft-ietf-netmod-intf-ext-yang/>
- <https://github.com/netmod-wg/interface-extensions-yang>
- Differences:
 - Added peer-interface and updated the examples from XML to JSON.
 - Otherwise stable since January.

Thanks to all for the patience and support!
