

**RASP RG:**  
**Research Analysis of Standardization Processes**  
**Research Group**

This session is being recorded

IETF120, 08.11.2024

---

# Note Well – Intellectual Property

- **The IRTF follows the IETF Intellectual Property Rights (IPR) disclosure rules**
- By participating in the IRTF, you agree to follow IRTF processes and policies:
  - If you are aware that any IRTF contribution is covered by patents or patent applications that are owned or controlled by you or your sponsor, you must disclose that fact, or not participate in the discussion
  - The IRTF expects that you file such IPR disclosures in a timely manner – in a period measured in days or weeks, not months
  - The IRTF prefers that the most liberal licensing terms possible are made available for IRTF Stream documents – see [RFC 5743](#)
  - Definitive information is in [RFC 5378](#) (Copyright) and [RFC 8179](#) (Patents, Participation), substituting IRTF for IETF, and at <https://irtf.org/policies/ipr>

# Note Well – Audio and Video Recordings

- The IRTF routinely makes recordings of online and in-person meetings, including audio, video and photographs, and publishes those recordings online
- If you participate in person and choose not to wear a red “do-not-photograph” lanyard, then you consent to appear in such recordings, and if you speak at a microphone, appear on a panel, or carry out an official duty as a member of IRTF leadership then you consent to appearing in recordings of you at that time
- If you participate online, and turn on your camera and/or microphone, then you consent to appear in such recordings

# Note Well – Privacy & Code of Conduct

- As a participant in, or attendee to, any IRTF activity you acknowledge that written, audio, video, and photographic records of meetings may be made public
- Personal information that you provide to IRTF will be handled in accordance with the Privacy Policy at <https://www.ietf.org/privacy-policy/>
- As a participant or attendee, you agree to work respectfully with other participants; please contact the ombudsteam (<https://www.ietf.org/contact/ombudsteam/>) if you have questions or concerns about this
- See [RFC 7154](#) (Code of Conduct) and [RFC 7776](#) (Anti-Harassment Procedures), which also apply to IRTF

# Goals of the IRTF

- The Internet Research Task Force (IRTF) focuses on longer term research issues related to the Internet while the parallel organisation, the IETF, focuses on shorter term issues of engineering and standards making
- **The IRTF conducts research; it is not a standards development organisation**
- While the IRTF can publish informational or experimental documents in the RFC series, its primary goal is to promote development of research collaboration and teamwork in exploring research issues related to Internet protocols, applications, architecture, and technology
- See “An IRTF Primer for IETF Participants” – [RFC 7418](#)

# RASP

Understanding of the standardization process via evidence-based reproducible work

Outputs:

Joint reports/papers

Tools/Data/Open-source software

Not:

Hierarchical comparisons between SDOs

Directly influence IETF operations

Chairs:

Álvaro Retana & Ignacio Castro

Charter: <https://datatracker.ietf.org/rg/rasprg/about/>

# RASP Welcome

Join the list, share data/requests/ideas/papers on the list  
<https://mailman.irtf.org/mailman/listinfo/rasprg>

House rules:

**All:** scan the QR, use meetecho for Q&A

**Speakers:** get ready during (prior) Q&A

Notes taker: volunteer to take notes of this meeting?

# RASP Agenda

Chairs, welcome and agenda

Justus Baron. The Role of Geography for Participation in Standards Development [on-site]

Ryo Yanagida. Exploring SDOs through open data: Sodestream tools and code [on-site]

Jaime Jiménez. Automating IETF Insights generation with AI [on-site]

Kaliya Young. Exploring the Remarkable Regenerative Patterns of the IETF [remote]
