

IETF 121 RegExt Session, Dublin, Nov. 5, 2024

# Review of draft-ietf-regext-rdap-jscontact

Mario Loffredo  
Registro.IT/IIT-CNR

# Changes since IETF 120

- **Version-19**
  - Turned the category into "Experimental".
  - Added versioning:
    - "jscard" is the Opaque Extension Versioning Identifier;
    - "jscard-0.1" is the Semantic Extension Versioning Identifier.
  - Revised the method to request for the JSContact format
    - removed the "jscard" query parameter
    - clients can use the "versioning" query parameter or the "rdap-x" media type.
  - Added a notice signaling the conclusion of jCard deprecation process.

# jCard sunset - JSCard not requested
