Consensus on Problem Statement & To Work on Problem

Avoid client trust conflicts by enabling servers to reliably and efficiently support clients with diverse trust anchor lists, particularly in larger PKIs where the existing `certificate_authorities` extension is not viable.

Proposals

We currently have one proposal on offer,
[draft-beck-tls-trust-anchor-ids](#).

There is another draft coming.

Way Forward

We will have set a deadline for submission of 20 December.

We will start a 2-week adoption call on 13 January 2025 for the drafts that we have.
