

IANABIS Charter Review: Issues

- Stronger requirements around advice to Designated Experts;
- Requirements for the use of Expert Review mailing lists;
- Standardizing terms like “registry group,” “registry,” “subregistry”, or updating existing definitions;
- **Process and restrictions regarding early allocations;**
- Adjustments based on IANA’s experience with registries over the past seven years;

IANABIS Charter Review: Issues

- Additional registration policies that can allow more flexibility for encouraging and accepting registrations;
- Combinations of registration policies with choices by WGs or registrants for specific cases;
- A registration policy between "First Come First Served" and "Specification Required"; and
- A process for using the Internet-Drafts system to create permanent references.
