

20 March 2025

# IETF 122 JMAP & CALEXT

This session is being recorded

# Note Well

This is a reminder of IETF policies in effect on various topics such as patents or code of conduct. It is only meant to point you in the right direction. Exceptions may apply. The IETF's patent policy and the definition of an IETF "contribution" and "participation" are set forth in BCP 79; please read it carefully.

As a reminder:

- By participating in the IETF, you agree to follow IETF processes and policies.
- If you are aware that any IETF contribution is covered by patents or patent applications that are owned or controlled by you or your sponsor, you must disclose that fact, or not participate in the discussion.
- As a participant in or attendee to any IETF activity you acknowledge that written, audio, video, and photographic records of meetings may be made public.
- Personal information that you provide to IETF will be handled in accordance with the IETF Privacy Statement.
- As a participant or attendee, you agree to work respectfully with other participants; please contact the ombudsteam (<https://www.ietf.org/contact/ombudsteam/>) if you have questions or concerns about this.

Definitive information is in the documents listed below and other IETF BCPs. For advice, please talk to WG chairs or ADs:

- [BCP 9](#) (Internet Standards Process)
- [BCP 25](#) (Working Group processes)
- [BCP 25](#) (Anti-Harassment Procedures)
- [BCP 54](#) (Code of Conduct)
- [BCP 78](#) (Copyright)
- [BCP 79](#) (Patents, Participation)
- <https://www.ietf.org/privacy-policy/> (Privacy Policy)

# Note Really Well

- IETF meetings, virtual meetings, and mailing lists are intended for professional collaboration and networking, as defined in the IETF Guidelines for Conduct (RFC 7154), the IETF Anti-Harassment Policy, and the IETF Anti-Harassment Procedures (RFC 7776). If you have any concerns about observed behavior, please talk to the Ombudsteam, who are available if you need confidentiality to raise concerns confident about harassment or other conduct in the IETF.
- The IETF strives to create and maintain an environment in which people of many different backgrounds and identities are treated with dignity, decency, and respect. Those who participate in the IETF are expected to behave according to professional standards and demonstrate appropriate workplace behavior.
- IETF participants must not engage in harassment while at IETF meetings, virtual meetings, social events, or on mailing lists. Harassment is unwelcome hostile or intimidating behavior—in particular, speech or behavior that is aggressive or intimidates.
- If you believe you have been harassed, notice that someone else is being harassed, or have any other concerns, you are encouraged to raise your concern in confidence with one of the Ombudspersons.

# IETF 122 Meeting Tips

## In-person participants

- Make sure to sign into the session using the Meetecho (usually the “Meetecho lite” client) from the Datatracker agenda
- Use Meetecho to join the mic queue
- *Keep audio and video off if not using the onsite version*

## Remote participants

- Make sure your audio and video are off unless you are chairing or presenting during a session
- Use of a headset is strongly recommended

# Resources for IETF 122 Bangkok

- Agenda  
<https://datatracker.ietf.org/meeting/agenda>
- Meetecho and other information:

# JMAP

## With IESG:

- *webpush-vapid*
- calendars

## WIP:

- filenode

## Proposed:

- archive format

## Expired Drafts:

- essential
- portability
- rest
- tasks
- smime-sender-extensions

## Milestone review

# Goodbye EXTRA

Goodbye to the EXTRA working group, who we often shared sessions with.

Work that used to go there is likely in charter for MAILMAINT, which met earlier today and is quite active!

# Hello Andy (Goodbye Murray)

This isn't really a goodbye, Murray isn't going anywhere further than "chair of DKIM", same time tomorrow. But he's stepping down as our Area Director.

Andy Newton is our new Area Director. Welcome Andy!

# calendars

This document is in the EDIT state.

Hopefully, nothing more to be done!

# filenode

This document hasn't been updated since last IETF.

Call for reviews and implementations (starting with Fastmail doing it ourselves!)

I'm particularly interested in "what other features should be in the core filenode object"?

# CALEXT

## With IESG:

- tasks
- subscription-upgrade

## Active work:

- jscalendar-icalendar
- participants
- vpoll

## Expired drafts:

- icalendar-series

## Milestone review

See you in Madrid
