

Ethernet Proxying Support for HTTP

[draft-ietf-masque-connect-ethernet-06](#)

Alejandro Sedeño

Changes since 121

Endpoints **MUST** drop Ethernet frames that they are unable to deliver.

Some additional performance considerations regarding congestion control.

Interop

Still looking for more implementations for interop. If you have already implemented [CONNECT-IP \(RFC 9484\)](#), you probably have most of what you need.

Is it time for Working Group Last Call?
