Note Well

This is a reminder of IETF policies in effect on various topics such as patents or code of conduct. It is only meant to point you in the right direction. Exceptions may apply. The IETF's patent policy and the definition of an IETF "contribution" and "participation" are set forth in BCP 79; please read it carefully.

As a reminder:

- By participating in the IETF, you agree to follow IETF processes and policies.
- If you are aware that any IETF contribution is covered by patents or patent applications that are owned or controlled by you or your sponsor, you must disclose that fact, or not participate in the discussion.
- As a participant in or attendee to any IETF activity you acknowledge that written, audio, video, and photographic records of meetings may be made public.
- Personal information that you provide to IETF will be handled in accordance with the IETF Privacy Statement.
- As a participant or attendee, you agree to work respectfully with other participants; please contact the ombudsteam (https://www.ietf.org/contact/ombudsteam/) if you have questions or concerns about this.

Definitive information is in the documents listed below and other IETF BCPs. For advice, please talk to WG chairs or ADs:

- BCP 9 (Internet Standards Process)
- BCP 25 (Working Group processes)
- BCP 25 (Anti-Harassment Procedures)
- BCP 54 (Code of Conduct)
- BCP 78 (Copyright)
- BCP 79 (Patents, Participation)
- https://www.ietf.org/privacy-policy/(Privacy Policy)

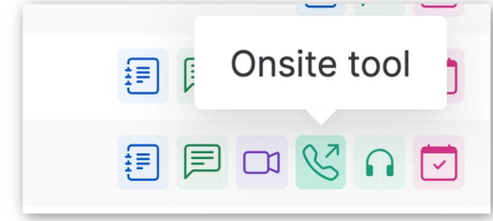
Note This Well Also

- IETF meetings, virtual meetings, and mailing lists are intended for professional collaboration and networking, as defined in the IETF Guidelines for Conduct (RFC 7154), the IETF Anti-Harassment Policy, and the IETF Anti-Harassment Procedures (RFC 7776). If you have any concerns about observed behavior, please talk to the Ombudsteam, who are available if you need confidentiality to raise concerns confident about harassment or other conduct in the IETF.
- The IETF strives to create and maintain an environment in which people of many different backgrounds and identities are treated with dignity, decency, and respect. Those who participate in the IETF are expected to behave according to professional standards and demonstrate appropriate workplace behavior.
- IETF participants must not engage in harassment while at IETF meetings, virtual meetings, social events, or on mailing lists. Harassment is unwelcome hostile or intimidating behavior—in particular, speech or behavior that is aggressive or intimidates.
- If you believe you have been harassed, notice that someone else is being harassed, or have any other concerns, you are encouraged to raise your concern in confidence with a member of the Ombudsteam.

Meeting logistics

In-person participants

- Make sure to sign into the session via Datatracker or the QR Code in this session.
- Use a Meetecho client (usually the “Onsite tool”) to:
  - join the mic queue
  - participate in shows of hands
- *Keep audio and video off if you’re using the full client version.*



Remote participants

- Make sure your audio and video are off unless you are chairing or presenting during a session.
- Use of a headset is strongly recommended.

Agenda

1. Admin: Introduction, Note Well, etc.
2. Discussion of failure-reporting draft
   - Are there objections to proceeding with it (finishing it)?
   - Is it essentially ready?
   - What are the open issues?
   - Let's plan a schedule and get aggressive about it.

Are there objections to proceeding?

- Choices are to complete the document or to abandon it.
- Remember that if we abandon it, we have to edit the base spec to remove the dependencies on it.
- So consider whether it’s easier to complete it in any case.
- We can always add text suggesting limited use/scope, if that’s where our consensus lands.

Is it essentially ready?

- Ale thinks it is.
- Do we agree?
- If not, we need to be clear about what remains to do
- See next slide:

What are the open issues?

- You fill in here!

Let's plan a schedule and get aggressive!

- Can we finish this by IETF 124 (Montréal)?
- If not, why not?
