draft-ietf-modpod-group-processes-08

Lars Eggert and Eliot Lear

IETF 123, Madrid, Spain

2025-7-23

https://github.com/larseggert/draft-ietf-modpod-group-processes

TL;DR

Five revisions (-03 to -08) since IETF 122

Presentation will attempt to summarize changes

We have **zero** open GitHub PRs, two tracking/tooling issues

Are we ready for WGLC?

Changes since -03

Add appendix giving non-normative examples of disruptive behavior

https://github.com/larseggert/draft-ietf-modpod-group-processes/pull/121

Changes since -04

Use plain English instead of BCP 14 language

https://github.com/larseggert/draft-ietf-modpod-group-processes/pull/120

Changes since -05

New attempt to address moderation/WG interactions

https://github.com/larseggert/draft-ietf-modpod-group-processes/pull/126

Changes since -06

Normalize handling of moderation across all fora

https://github.com/larseggert/draft-ietf-modpod-group-processes/pull/129

Obsolete RFC 3934, explicit admin responsibility

https://github.com/larseggert/draft-ietf-modpod-group-processes/pull/132

Changes since -07

Pete Resnick issues and similar

https://github.com/larseggert/draft-ietf-modpod-group-processes/issues/134

Various editorial cleanups

Are we done?

Main changes:

- Shift in emphasis from the moderator team itself to moderation policy (of which the team is part)
- Clarity of roles
