- For detailed process information consult **RFC 2026: Internet Standards Process** and **RFC 2418: IETF Working Group Guidelines and Procedures** and updates to those.

- GitHub usage and tooling (WG Chairs forum @ IETF 123)
- Virtual interim held 17 September 2025
- Brainstorming session on the problem and possible improvements.
- GitHub Experience levels:
  - people who use it in \$dayjob to write code
  - people who use in the IETF context to prepare documents
- Types of IETF usage:
  - regular contributors
  - occasional contributors/reviewers
  - leadership who have “infrastructure/process” flow use cases

- Three specific cases that could be addressed:
  - Organizing your workspace, for WG chairs, Rich has some starting content.
  - Authoring: using Martin Thomson's tool and the WebUI, Jean has some documentation from RPC experience
  - Reviewing - making a pull request?
- Greg/Deb already working on documentation that would address some of this.
- Other actionable thing discussed:
  - "Welcome to the chair role" email that highlights resources.
- Side note: WG chair email in advance of IETF 124 was good!
