IETF 125

Tomofumi Okubo
Corey Bonnell
John Gray
Joe Mandel
Mike Ounsworth
David Hook

Progress since IETF 124

- Added David Hook as co-author
- Fixed ASN.1 bugs
- Renamed “Purpose ID” to “Intent ID”
- Resolved several questions and comments from Dan
  - Several more have proposed solutions, but need agreement from Dan and authors
- Start work on example certificate generator
  - We figured out the certs that we want to include as examples, just need to finish writing the scripts

Next Steps

- Resolve the remaining open issues from Dan
- Address feedback from Sarat on SPKI binding
- Finish generation scripts
- Publish new version
- WGLC
