# Virtual clients

IETF 125  
MLS WG Meeting  
Konrad Kohbrok

---

# Reminder

---

# What has happened

- Integrated text from draft-mcmillion-mls-subgroups
- Started implementing, preparing OpenMLS

## Lessons learned:

- Processing own messages needs extra work
  - So does injecting randomness
-

---

---

# ToDos

- Editorial work
  - Emulation client management
    - Onboarding new clients (multiple options)
  - Security considerations
-
