

newtrk: past and present

charter:

- deliberate about standards track
- explore meta documents about standards
- discuss RFC cleanup processes

did:

- reached consensus on meta documents (ISD)
 - rejected by IESG
- reached consensus on decrufting document
 - approved by IESG

did not:

- directly deliberate about standards track

newtrk: future

in newtrk or in a new WG

options:

- deliberate about standards track

 - e.g. # steps, references, procedures

- revisit meta documents (ISD or alternatives)

 - would need to resolve issue of IESG role

- revise RFC 2026

- say “thanks for all the fish”
