Gen Area Meeting

# RFC 2434bis

- We have 7 years of experience with RFC 2434
- Framework largely solid
- Plenty of experience to reflect in update
- Ready for wider IETF review
- One more revision, then maybe IETF LC?
- Now is a good time to review!
- draft-narten-iana-considerations-rfc2434bis-04.txt

# Change Highlights

- "IETF Consensus" term -> "IETF Review"
- Reflect IETF documents vs. RFC Editor submissions
- Better examples of "what to put in IANA considerations"
  - When creating a new registry
  - When requesting assignment from registry
- IESG has authority to step in when circumstances dictate
- Specification Required now implies use of Designated Expert

# Change Highlights (cont).

- Appeals handled via standard 2026 process
- Expanded text on Designated Expert
  - Accountable to community
  - Transparency
  - Timeliness
