

Framework

- draft-ietf-eai-framework-01.txt
- Added comments about PGP, S/MIME, and DKIM to Security Considerations
- Rationalized terminology and included terminology from scenarios document.
- Continue to track other documents
- Probably ready for WG Last Call before next IETF

Scenarios

- draft-ietf-eai-scenarios-01.txt
- Identifies ways in which these specifications will be used and the cases to be covered.
- Refinements, but nothing major, since last meeting.
