

# RFC 3978 update

Scott Bradner

July 10, 2006

# Changes v:04 to v:06

- remove text relating to “outbound rights”
- state what part of ID were to be normative
- removed comment on copyright on the “collective work”
- add text that moves the boilerplate text from the RFC to a separate URL
- add instruction to IETF Trust to grant the rights needed to run the IETF process to IETF participants
