SIMPLE - XMPP Interworking

Peter Saint-Andre
Jabber Software Foundation
IETF 66

What's Covered

- Address mappings

- Presence mappings

- Subscription mappings

- Message mappings (pager mode only)

- Out of scope: chat (session mode), group chat, etc. (to follow in future specs)

Open Issues

- MIME types (e.g., must support TXT + XHTML, otherwise hand off to helper)

- Error mappings

- Fix SIP subscription semantics

- How to handle SIP resubscribes to prevent amplification attacks
