RTCP for SSM

Julian Chesterfield, <u>Jörg Ott</u>, Eve Schooler

7 November 2006

Changes from -11 to -12

- **Editorial changes**
  - **Essentially fixing typos**
  - **Correcting some inconsistencies**
  - **Adding clarifications**

- **Technical changes**
  - **SSRC collision behavior**
  - **Added out-of-band SSRC announcement**

Out-of-Band SSRC Announcement

- **Media Sender SSRC indication in SDP**
  - **Avoid SSRC clashes with the sender**
  - **Allow early feedback prior to media reception**

- **"ssrc" attribute**
  - **Specify value, CNAME, RTP entity role, params**

- **Example**
  ```
  a=ssrc:12345678 iptv-1234@example.com media-
    sender [params]
  ```

- **Question: is this of broader interest?**
  - **If so, are we missing something?**

Moving Forward

- **Draft is technically complete**
- **Some comments from Magnus remaining to address**
- **Currently reshuffling parts of the text**
  - **Improving clarity**
  - **Reducing redundancy**
- **No further technical changes planned**
