

Better Than Nothing Sec BTNS

IETF 67, Nov 6, 2006

Chair: Love Hörnquist Åstrand

mailing list: anonsec@postel.org

jabber: btns@jabber.ietf.org

audio feed: <http://videolab.uoregon.edu/events/ietf/>

Agenda

- Document status (5 min) - Chair
- Second chair (5 min) - Sam Hartman/AD
- Problem and applic statement (20 min) - Joe Touch
- IPsec Application Programming Interfaces (20 min)
Michael Richardson
- Technical discussion and open issues (10 min)
- Next steps, milestones and wrap up (10 min) - Chair

Goals for this meeting

- Finish last items on PS/AS and WG-LC it
- Core documents are completed and chair will WG-LC them after sending PS/AS to IESG
- Discuss the API document and decide direction, editors
- Update milestones

Document status

- draft-ietf-btms-prob-and-applic
- draft-ietf-btms-core
- draft-ietf-btms-connection-latching
- draft-ietf-btms-ipsec-apireq
- draft-komu-btms-api

Problem and applicability statement

Joe Touch

draft-ietf-bttns-prob-and-applic-04.txt

Core and conn' latching

Michael Richardson

(respin to do agreed edits)

Editors for API draft

- We need more momentum behind the API document, its driven by Miika for now
- Right, I need support editor, or at least names for review that I/Miika can call on when needed

Technical discussion

- API
 - connection latching
 - editing policy (Sam Hartman)

IPsec Application Programming Interfaces

Miika Komu
draft-komu-btms-api-00.txt

Presented by Michael Richardson

Technical discussion

- Any other issues ?

Next steps

- Take AS/PS to WG-LC
- Take core and connections latching documents to WG-LC
- Discuss the API document and the direction
