

IETF Calsify Working Group

November 6, 2006

Agenda

- 👁 Agenda Bashing
- 👁 Administrativa
- 👁 Suggested Simplifications from CalConnect (Cyrus)
- 👁 RFC2445bis – issues list
- 👁 (other docs if we get that far)

Administrativa

- rfc2445bis is progressing - many issues closed, many issues to go
- tomorrow is the last day to open new issues on the old document
- once rfc2445bis is completed we will complete work on 244[67]bis
- a special thank you to the authors and to the active members of the group!

Next Steps

- Continue closing issues - primary focus of this meeting
- Issue tracker:
 - <http://www.ofcourseimright.com/cgi-bin/roundup/calsify>

Issues 13, 14, 24, 25: RRULE simplification

- 👁 Status: Text in draft
- 👁 RRULEs MUST include DTSTART
- 👁 Deprecate EXRULE
- 👁 RRULEs SHOULD NOT occur more than once

Issue 16: BY Rule beyond duration

👁 Status: Example Proposed

👁 Cleaned up example:

```
DTSTART;TZID=Europe/Vienna: 20060201T120000  
RRULE:FREQ=MONTHLY;INTERVAL=3;COUNT=5;BYMONTHDAY=30
```

results in occurrences on 1 Feb 2006, 30 May 2006, 30 Aug 2006, 30 Nov 2006, 30 May 2007.

Issue 19: IANA considerations

- 👁 Status: Open / No-text
- 👁 Need to provide appropriate rules for extending iCalendar
- 👁 Need to review current registration

Issue 27: DTEND/ DURATION

- 👁 Status: No Consensus (lots of talk, tho)
- 👁 Issue is about corner cases, when DST comes or goes.
- 👁 Does a meeting have a set duration or a set end time?

Issue 28...

- 👁 In 4.8.5.4 Is RDATE required even when the recurrence instance is defined in a separate component?
- 👁 Status: open/no text

Issue 32: Streams?

- Status: text proposed / no discussion
- Issue: clarification of multiple iCalendar objects / new definition of stream to contain those

34: methods with multiple objects

- 👁 Status: text proposed / no discussion
- 👁 Proposal: you must use the same method throughout the stream
- 👁 duh?

36: X-name

- Status: no consensus
- Issue is use of the word "bilateral"
- Propose retain old text

42: ALARM actions

- Status: open / no text
- Conflict between sections 4.6.6 and 4.6.8.1
- Bernard recommends allowing IANA and vendor specified actions, as stated in 4.6.8.1

43: proper form of DTSTART

- Status open / no text
- Issue is whether DTSTART can use UTC in a VTIMEZONE component
- Bernard recommends "no"
- Propose we get text to this effect

44: Non-standard Properties

- ④ Status: Open / No Text
- ④ There is no reason to invent an xparam if there already exists a parameter that can be used.
- ④ Not sure I understand this one...

45: Bad LDAP URLs

- 👁️ Status: Open / Text Exists
- 👁️ Corrected URIs
- 👁️ any objections?

46: Trigger relative to DATE value type

- Status: Open / No text
- Issue is whether date is relative to Zulu or localtime
- Comments?

Deprecate RANGE?

- 👁️ Status: Open / No Text
- 👁️ Is RANGE=THISANDFUTURE (for example) ever used?
- 👁️ Consensus and text needed

51: Non-inclusive end on events with DATE

- 👁 Status: Open / Text
- 👁 The non-inclusive end is the beginning of the next day
- 👁 Ok?

52: disallow x-name in RRULEs

- Status: open / no text
- What could possibly be worse for interoperable RRULEs than an x-name?
- Remove?

53: Content Lines and non-US-ASCII

- Status: Open / Text

- The NON-US-ASCII rule should be:

NON-US-ASCII = %x80-BF / %xC2-F4

54: Version Value Bump?

- 👁️ Status: Open / No Text
- 👁️ If we bump the version then many years from now we can remove stuff
- 👁️ Current apps may get heart burn
