Address Family Identifiers Assignment Policy

Bill Fenner <fenner@research.att.com>

Who uses AFI?

- Routing

- Who else? Sample AFI value that was not registered for routing:

  - 16   DNS (Domain Name System)

What should the policy be?

- Specification Required + Early Allocation
  - Motivation: stamp of IETF approval on value; control allocations
- FCFS
  - Motivation: there are lots & there is no reason to control who gets one
