

Bob Braden and Joyce K. Reynolds recognized with the Internet Society's 2006 Jonathan B. Postel Service Award

*Bob Braden*

The Jonathan B. Postel  
Service Award

*Presented to*  
**Bob Braden and**  
**Joyce K. Reynolds**  
  
*for their stewardship of the  
RFC series that enabled  
countless others to contribute to  
the development of the Internet*

*November 2006*

*Joyce Reynolds*

## Bob Braden and Joyce K. Reynolds recognized with the Internet Society's 2006 Jonathan B. Postel Service Award

*Bob Braden*

*Bob Braden, who has more than 50 years of experience in the computing field, joined the networking research group at ISI in 1986. Since then, he has been supported by NSF for research concerning NSFnet and the DETER security testbed, and by DARPA for protocol research. Braden came to ISI from UCLA, where he had technical responsibility for attaching the first supercomputer (IBM 360/91) to the ARPAnet, beginning in 1970. Braden was active in the ARPAnet Network Working Group, contributing to the design of the FTP protocol in particular. He also edited the Host Requirements RFCs and co-chaired the RSVP working group.*

## Bob Braden and Joyce K. Reynolds recognized with the Internet Society's 2006 Jonathan B. Postel Service Award

*Joyce K. Reynolds worked closely with Jon Postel, and together with Bob Braden she has been co-leader of the RFC Editor function at the University of Southern California's Information Sciences Institute (ISI) since 1998. In this role she performed the final quality control function on most RFC publications. Reynolds has also been a member of the IETF since 1988, and she organized and led the User Services area of the IETF from 1988 to 1998. In her User Services role, she was an international keynote speaker and panelist in over 90 conferences around the world, spreading the word on the Internet.*

## Bob Braden and Joyce K. Reynolds recognized with the Internet Society's 2006 Jonathan B. Postel Service Award

*The Jonathan B. Postel Service Award was established by the Internet Society to honor those who, like Postel, have made outstanding contributions in service to the data communications community. The award is focused on sustained and substantial technical contributions, service to the community, and leadership. With respect to leadership, the nominating committee places particular emphasis on candidates who have supported and enabled others in addition to their own specific actions.*
