

# ENRP Implementation Issues

Michael Tüxen

[tuexen@fh-muenster.de](mailto:tuexen@fh-muenster.de)

# Prototype Implementation

- Frank Volkmer implemented a prototype of ENRP as part of his Ba-Thesis.
- Limitations
  - No ASAP.
  - No Takeover.
  - No focus on optimized data structures.
- Will be completed.

# Issues with the ENRP-ID

- Which messages can be sent over Multicast?
- Handling of addresses.
- Takeover Request needs to be answered from all (except for one) peer.
- When to include the Service Information Parameter in Peer Presence Messages?
- How are the ENRP servers connected?
