

Softwires WG

Hub & Spoke Framework

draft-ietf-softwire-hs-framework-l2tpv2-03

Prague, 03/19/2007

Hub & Spoke Framework

- Review of changes
 - Change IETF Boiler plate
 - Add text about L2TP HELLO and LCP ECHO timers
 - Move downrefs into informative
 - Remove mention for PAP authentication

Hub & Spoke Framework

- L2TP HELLO / LCP ECHO timers
 - Inputs from NTT
 - For Dead-End detect. and NAT/PAT entry refresh.
 - HELLO timers = 84s but SHOULD be configurable
 - SI MAY also use ECHO for NAT/PAT
 - timer(HELLO) SHOULD be lower than timer(ECHO)

Hub & Spoke Framework

- Status of the draft
 - Comments requested on ML: no feedback received
 - Should go to WG Last Call
