

# RTCP HR

## draft-ietf-avt-rtcphr-01.txt

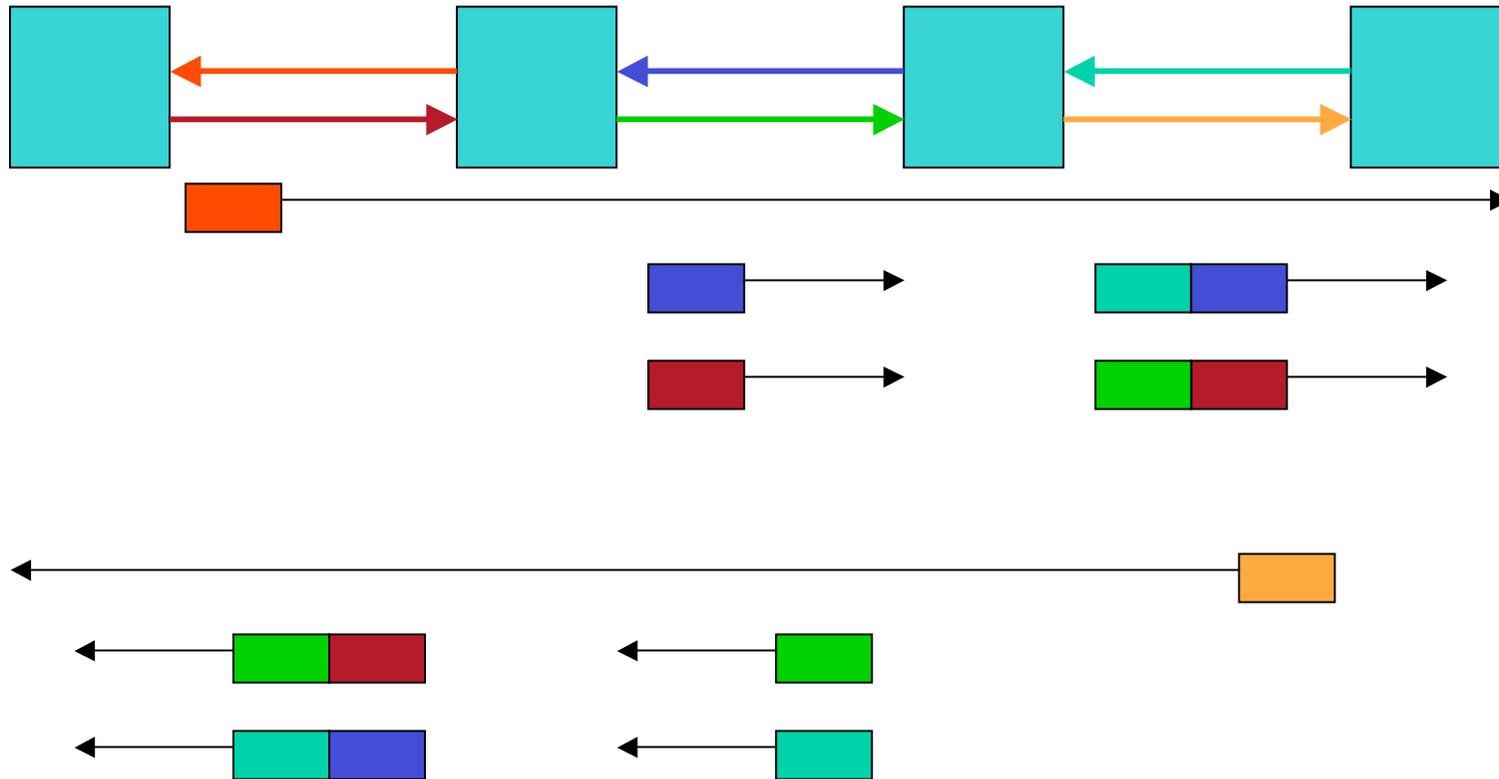

Alan Clark, Geoff Hunt, Rajesh Kumar, Amy  
Pendleton, Kevin Connor

IETF 69 - Chicago

# Changes / comments addressed

- Removed text on reporting modes from Section 2
- Moved section on application to RTP translators
- Added section on Report multiplexing
- Addressed other comments from Keith Lantz and Albrecht Schwarz

# Report Multiplexing

# Yet to do...

- Control by SDP
  - Any at all?
  - If so, on/off flag? profile indication? detail?
- Implications of concatenation
  - Long packets
  - Behaviour of HR-unaware RTP translators
- Use cases “for further study”
  - either do them or drop them in next draft

# Next Steps

- Aim for next draft ready for WG last call
- Work in ITU-T SG16 is tracking this draft to report metrics via H.248
