

**draft-ietf-lost-06**

# Current status

- 06 Draft not submitted due to author bobble
  - (Sorry!) Available at <http://www.tschofenig.com/svn/draft-ietf-ecrit-lost/draft-ietf-ecrit-lost-06.txt>
- Updated in -06 in SVN:
  - id attribute on <location>
  - LocationUsed to identify the location object
  - Made profile attribute is optional
  - Clarified interaction with HTTP error code
  - polygon profile

# Proposed Update

- Conversation on the list among Hannes, Henning, and James on additional profile which would include circle, ellipse, and arc band.
  - Discussiong seemed to converge on agreement to add these, provided that the LoST server MAY use the center point for mapping.
- Any contention: speak up
- If not, this will be added, -06 issued, and request for WGLC made by authors.
