# RADIUS Issues & Fixes

http://www.ietf.org/internet-drafts/draft-ietf-radext-fixes-05.txt

David Nelson

Elbrys Networks

Alan DeKok

FreeRADIUS

IETF 69

# **Summary**

- -03 sent to IESG for comments, -04 resulted

- Mostly clarifications

- Suggestions for retransmit timers

    - Taken from PANA draft

    - Biggest change since -03

- Treat unknown attributes in Accept as Reject

# Summary continued

- -04 submitted, -04 resulted

- Mostly clarifications

  - Which packets invalidate the cache, and why

  - "unknown as reject" SHOULD be configurable

  - clients SHOULD use Message-authenticor

  - Updated security section with attacks on cache

# Next steps

- Submit -05

- Obtain WG consensus

- Submit to IESG
