

Softwire WG

Hub & Spoke Framework

draft-ietf-softwire-hs-framework-l2tpv2-05

Chicago, 07/25/2007

Changes from -03 to -04

- Editorial changes
 - Pointer to Barcelona interim meeting
 - I-D.ietf-radext-delegated-prefix => RFC4818
- Changes in content
 - Clarifications on Mandatory/Optional AVPs
 - Precision on IPv4 Delegated prefixes / End points addresses :
 - Delegating private IPv4 not recommended => should use address translation

Changes from -04 to -05

- Minor editorial changes
- Changes in content
 - Clarifications on Mandatory/Optional AVPs
 - Added suggested values (only as guidance) for Keepalives

Next ...

- Consensus reached amongst authors ...
- ... But what about the WG ?
- WG Last Call should be issued soon !
