forces protocol specification
draft-ietf-forces-specification-12.txt
draft-ietf-forces-specification-13.txt
4 december 2007
avri@ltu.se

changes in -12

- Completed before IETF

- replaced 'element' with 'component', i.e.,
  - LFB components
  - Structure components
- No other changes because they were still is discussion

- Strongly arguing for minimal change
  - if something is shown to be broken by implementation
  - if something does not correspond to model requirements (maybe)

changes in -13

- Current working draft
  - http://psg.com/~avri/ietf/draft/draft-ietf-forces-protocol-13-0.txt

- fixed LFB schema = 2
- fixed figure 4 and explanatory text
- fixed figure 43 and explanatory text

changing figure 4 in -13

CE sends Association Setup

CE sends Association Teardown

FE loses Association

Basic FE State Machine

changing figure 43 in -13
