

# Next Steps

MIPSHOP WG, IETF 70

# Next Steps

- Complete the work on two remaining items
  - AAA based handover keys for FMIPv6
  - MIH solution document (s)
    - Decide on document structuring
    - Adopt as a WG document
- Address IESG and IETF last call comments received on documents submitted to the IESG
- Recharter

# Rechartering

- Some of the proposed charter items so far
  - A solution for AAA based handover key for FMIPv6
    - More specific in scope rather than the current generic statement in the charter
  - FMIPv6 with PMIPv6
  - FMIPv6 prefix assignment for p2p links
- Would like to hear some comments from folks now and on the mailing list
