# Routing Research Group
Welcome

- Minute taker?
- Jabber scribe?
- Presentations to chairs, please

From our lat meeting: Convergence

- Goal: Recommend one architecture proposal to IETF
- Floor remains open for new proposals, mergers, derivatives
- Start driving towards convergence March'08
- Attain rough consensus via debate, discussion, comparison
- Deliver a recommendation by March '09

Forward Progress

- Recommendation will be a new routing architecture description at conceptual level
 - not tied to any specific proposal

# Tuesday Agenda

9:00 Chairs   Logistics, agenda bashing

9:10 Philip Eardley   Locater ID proposal evaluation

10:10 Chairs   Mapping Model Discussion

Mapping Model Discussion

- Assumption: we will reach consensus on needing a mapping function
- The design space for a mapping function can have multiple dimensions, e.g.
  - Push versus poll
  - Hierarchical versus flat
  - A dedicated mapping distribution system versus overlaying the function on existing infrastruture
 - Granularity?
- Mindmapping: Scott Brim

6

Wrap up

- Blue sheets to the chairs, please
- Presentations to chairs, please
- See you on Friday

Friday Agenda

9:00	Chairs	Logistics, agenda bashing
9:05	Christian Vogt	Six/One Router
9:30	Christian Vogt	DNS Map
9:50	Dino Farinacci	LISP update
10:45	Lixia Zhang	APT incremental deployment

Wrap up

- Blue sheets to the chairs, please
- Presentations to chairs, please
- See you in Dublin
