Short update on:
draft-bernardos-autoconf-solution-space
draft-bernardos-autoconf-evaluation-considerations
draft-bernardos-manet-autoconf-survey

71st IETF, Philadelphia – March 2008
Carlos J. Bernardos <cjbc@it.uc3m.es>

Hassnaa Moustafa <hassnaa.moustafa@orange-ftgroup.com>
María Calderón <maria@it.uc3m.es>

Short update on the I-Ds status

- I-Ds not updated since Vancouver, focus on the PS

- draft-bernardos-autoconf-solution-space-00
  - Refine current analysis, align it with PS and arch docs
  - Could help the WG in the solution design

- Draft-bernardos-autoconf-evaluation-considerations-01
  - Update and fix it, align it with PS
  - Could help understanding the different tradeoffs involved in the design of an autoconf solution

- draft-bernardos-manet-autoconf-survey-02
  - Update it as new solutions appear (or we become aware of some that we initially missed)
  - Keep the doc alive for some time (to help in the solutions design discussions)
