• Change log (-02)
  – -02 published on December 2007
  – Third draft, for comment by the community.
  – Update following comments received from the ipdvb list (Gorry Fairhurst).
  – Then reviewed by Martin

• Change log (-03)
  – -03 published on July 14th 2008
  – Update following comments received from Martin and complement/corrections from SatLabs.
Draft status

- MIB module overview was expanded
  - Relationship to the Interface MIB, protocol stack
  - MIB groups descriptions

- Amended according to guidelines in RFC2578 and 4181 (naming, indexes…)

- MIB compiles well, up to level 6 with http://www.simpleweb.org/ietf/mibs/validate/

- Can now be analyzed again by MIB doctor

- Note there are few formatting errors due to last minute I-D editing issues (!)
