Ready for WGLC?

- Who has read the latest revision of the CCID-4 draft?

- Has anyone investigated the interactions between CCID-4 applications and the updated TFRC specified in RFC 5348?

- Have you been reading the specification with a view to implementing it? - Are there any ambiguous text, errors, or do you have any other experience?

- Do you personally think this work is mature enough for last call for publication as an intended Experimental RFC?
