Atsushi Kobayashi [akoba@nttv6.net](mailto:akoba@nttv6.net)

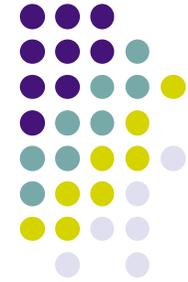

# Overview

- Changes since last meeting
- MIB Doctor Review: Outstanding Issues
- Next step

# Changes since last meeting

- Addressed Issues raised by MIB Doctor review
  - Improved object types
  - Improved top level object hierarchy to obey existing standards
  - Addressed editorial improvements

# MIB Doctor Review: Outstanding Issues

- Remaining issue from MIB Doctor review
  - Make up an independent MIB module for selector functions
    - Advantages: could be controlled by IANA and update on the basis of expert review
  - ipfixmeteringProcessId - it is not an index and its value is implementation dependent (issue T19)
    - Proposal: remove it, to be consistent with [IPFIX-CONF]

# Next Step

- Ready for IETF last-call?
