

# draft-ietf-xmpp-e2e- requirements

XMPP WG, IETF 76

Peter Saint-Andre

# Status Update

- I-D accepted as a WG item
- Still at -00
- No discussion on the list
- No feedback received
- Reviews needed!

# Moving Forward?

- Hard to discuss requirements in a vacuum
- Add more complete analysis of past failures
- Informal call for possible approaches
- Improve and complete the requirements
- Then call for formal proposals to settle on a technical approach
