List Activity

- Sebastien Decugis, 17/11/2009 (GMT-5):
 - Hop-by-hop issue for application advertisement
 - Need to specify usage of the Application Id
 - ALL-REALM vs. ALL-APPLICATION vs. ??
 - Smaller issues / editorial
- Jouni Korhonen, 04/12/2009 (GMT-5):
 - Would like to see real-world example of requirement
 - Is this one application that others can benefit from, or have to redefine all applications to use it?
 - Potential conflict between DNS and Diameter cache times
 - Questions setting of 'M' flag

Follow-Up

- Expect to issue new version within next month
- Would like to discuss application issue now
 - Intention is that this is like the relay application, usable by any other application
 - Need to understand further the hop-by-hop issue
