YANG Status

draft-ietf-netmod-yang-11

IETF 77
Martin Björklund
mbj@tail-f.com

Summary of changes since -08

- Issue 'system-creatable' closed
    - Declared that a formal mechanism for specifying the circumstances when a server may modify the data store is out of scope.

- Issue 'changing defaults' closed
    - Allow defaults to be added to leafs in an updated module.

- WGLC on -09 ended 2010-01-04
    - Terminology cleanup, many editorial fixes.
    - Clarified <edit-config> processing.
    - Require a new revision statement if a new version is published.

- Now -11 in IETF LC
