

SCTP Socket API

draft-ietf-tsvwg-sctp-strrst-04.txt

Randall Stewart (rstewart@huawei.com)

Michael Tüxen (tuexen@fh-muenster.de)

Current Status

- Incorporated comments from the Linux SCTP maintainer.
- Incorporated editorial changes.
- Updated all example message flows.
- Added a socket API section.
- Review by authors.
- Ready for WG LC.

Open Issues

- Some descriptions are not clear enough.
- The API has evolved over about 10 years as the protocol has been extended.
- Some of the original assumptions had to be revisited.
- Some of the original structures/functions need to be deprecated and more appropriate ways specified.
