SCTP NAT

draft-ietf-behave-sctpnat-02.txt
draft-stewart-natsupp-tsvwg-00.txt

Randall Stewart (rstewart@huawei.com)

Michael Tüxen (tuexen@fh-muenster.de)

Current Status

- The behave document describing the SCTP NAT mechanism was split into two documents as requested by the BEHAVE/TSVWG WG chairs.
- The TSVWG documents has PS as its intended status whereas the BEHAVE documents will be a BCP.
- The documents still need some work.
- The TSVWG document has dependency on the chunk flag registration ID.
- The TSVWG ID need WG adoption.
