# Client Launch Message

ideas and status

So What Is It?

- Describes a message and mime type that COULD be used to launch a VWRAP Client Application
- Useful if you like OpenID
- Not manditory
- Of interest more to Client Application and Agent Domain / Authentication Service developers

So What Is It?

Status

- Recent draft included minor tweaks to support capabilities as LoginURIs.
- We think we're more or less done with it.
- Needs some formatting changes.

Issues

- ???
