Changes From -02

- Specified that this could be included in new applications (as opposed to standing as an application on its own)
 - If supporting application not advertised by upstream peer in CER/CEA exchange, Redirect Agent returns "DIAMETER_UNABLE_TO_DELIVER"
 - If supporting application was advertised, Redirect Agent returns "DIAMETER_REALM_REDIRECT_INDICATION"
- Redirect usage now REALM_AND_APPLICATION as suggested by Sebastien Decugis.
