Common Authentication Technology Next Generation (kitten-wg)
Maastricht, The Netherlands – IETF 78

Tom Yu (tlyu@mit.edu)
Shawn Emery (shawn.emery@oracle.com)
Note Well

Any submission to the IETF intended by the Contributor for publication as all or part of an IETF Internet-Draft or RFC and any statement made within the context of an IETF activity is considered an "IETF Contribution". Such statements include oral statements in IETF sessions, as well as written and electronic communications made at any time or place, which are addressed to:

* the IETF plenary session,
* any IETF working group or portion thereof,
* the IESG or any member thereof on behalf of the IESG,
* the IAB or any member thereof on behalf of the IAB,
* any IETF mailing list, including the IETF list itself, any working group or design team list, or any other list functioning under IETF auspices,
* the RFC Editor or the Internet-Drafts function

All IETF Contributions are subject to the rules of RFC 5378 and RFC 3979 (updated by RFC 4879).

Statements made outside of an IETF session, mailing list or other function, that are clearly not intended to be input to an IETF activity, group or function, are not IETF Contributions in the context of this notice.

Please consult RFC 5378 and RFC 3979 for details.

A participant in any IETF activity is deemed to accept all IETF rules of process, as documented in Best Current Practices RFCs and IESG Statements.

A participant in any IETF activity acknowledges that written, audio and video records of meetings may be made and may be available to the public.
Overview

- Preliminaries (5 min)
  - Introduction
  - Blue Sheets
  - Scribe, Jabber
  - Remote Participation
  - Agenda Comments
- Active WG and non-WG Items (10 min)
- Naming Extensions Lessons and Security Implications (30 min)
- Recharter Discussion (60 min)
- Review and Milestones (10 min)
- Open Mic (5 min)
Active WG and non-WG Items

- draft-ietf-kitten-gssapi-extensions-iana
- draft-ietf-kitten-gssapi-naming-exts
- draft-ietf-kitten-digest-to-historic
- draft-lha-gssapi-delegate-policy
IANA wants us to pick a registry type
1. single GSS-API name-space registry
2. separate registry - symbolic and constant registries
3. registry per programming language

Love had suggested to have a registry per programming language

Difficult to manage registry once a new language is added

WG consensus
draft-ietf-kitten-gssapi-naming-exts

- State: Waiting for AD Go-ahead
- Sam Hartman presents lessons and security implications (30 min)
- WG consensus:
  - Proceed w/IETF LC and submit another draft covering new material?
  - Cancel IETF LC, revise current draft, and resubmit new version?
Non-WG Item

- draft-lha-gssapi-delegate-policy
- Now RFC 5896!
Recharter Discussion

• Now Common Authentication Technology Next Generation
  – Allows folding remaining and new SASL work items into WG
    • draft-ietf-kitten-digest-to-historic
    • draft-lear-ietf-sasl-openid
    • draft-wierenga-ietf-sasl-saml
• draft-yu-kitten-api-wishlist revised for clarification
Recharter Discussion (cont.)

- Still looking for volunteers for the following work items
  - initialization/new credentials
  - listing/iterating credentials
  - exporting/importing credentials
  - error message reporting
  - asynchronous calls
  - security strength reporting
  - programmer friendliness
New Work Items

- draft-ietf-kitten-digest-to-historic
  - Submit WG LC again, too long since last
- draft-lear-ietf-sasl-openid
  - Mechanism name corrected
  - Simon revised for GS2
- draft-wierenga-ietf-sasl-saml
  - Simon has revised for GS2
New Work Items (cont.)

- draft-wierenga-ietf-sasl-saml comments
  - Alexey: Why is the IdP required to talk to the SASL server?
  - Scott: The SASL client has passed control to the browser at this point and the response is handled by the browser.
  - Scott: Removing this control to the browser is why I submitted draft-cantor-ietf-sasl-saml-ec, in which the SASL server does not talk to the IdP.
Review and Milestones

- For those that have volunteered
  - Provide milestones for WG LC and submittal to IESG
    - draft-ietf-kitten-digest-to-historic
    - draft-lear-ietf-sasl-openid
    - draft-wierenga-ietf-sasl-saml
Open Mic

- Questions or comments?
